**Subject:** RE: West Fertilizer

As I understand it, they don't manufacture anything they just receive, store, and distribute. But I will let Bob respond since he has been to the facility.

Thanks,  
Kim

**Subject:** West Fertilizer

Are we sure that it really is program 2? Would it fall under the NAICS codes 325311 Nitrogenous fertilizer manufacturing or 32532 Pesticide & other agricultural chemical manufacturing which would make it program 3?

Thanks,

Craig
